

# acp The Orange County Chapter Presents

## When Pigs Fly: Why Flu is Still an Important Emergency Preparedness Issue

A colorful review of several recent flu seasons emphasizing many of the commonalities between H1N1 events and events of previous flu seasons. Learn the difference between the bird flu and pandemic flu. Discover the truth about some common misunderstandings about the flu vaccination.

**Sadina Reynaldo, Ph.D., Asst. Program Director, Pandemic Influenza Unit, Los Angeles County Department of Public Health**

## Pandemic H1N1 in Orange County: An H1N1 Retrospective and Business Snapshots

Participants will be introduced to the OC Health Care Agency process to prepare OC cities and businesses to plan for and respond to a public health emergency. The presentation will focus on:

- Pandemic preparedness planning activities taken and the community response effort during the H1N1 pandemic.
- Preparedness methods that individuals and businesses can take now to assist in this response effort.
- An overview of Orange County's H1N1 experience from a medical perspective
- Highlights of specific incidents affecting local businesses

**From the Orange County Health Care Agency:**

**Keith Olenslager, MPH, Health Disaster Management Division and Michele Cheung, MD MPH, Deputy Medical Director, Epidemiology**

# Wednesday, April 14, 2010 Noon to 3:00 PM

## Members \$10, Non-Members \$20
