

acp The Orange County Chapter Presents Business Continuity Forensics

Tom Stein will discuss how the development and management of your business continuity program can be enhanced by using the techniques contained in the Commercial Aviation industry's aviation mishap analysis methodologies. Implementation of the analysis begins much like crisis notification then swings quickly into root cause analysis and accident investigation. Learn how these principles can transform your program.

Tom Stein, President, GreyHawk Enterprises

A Year of Disasters & Lessons Learned

Disasters occur all the time and every where. Each one brings its own unique readiness, destruction, and lessons. Bill Wostenberg will walk us through the incidents he has had to manage and the lesson learned so everyone can improve their readiness for the next similar event.

Bill Wostenberg, BCP Manager, Automobile Club of Southern California
